

Town of Wabush

WHEN OPPORTUNITY KNOCKS...

Director of Public Works:

The Director of Public Works ensures ongoing maintenance of the town's roads, infrastructure and equipment, provides day to day oversight of the town's water supply, waste water treatment plants, and lift station. The Director establishes priorities in conjunction with the CAO/Town Manager and supervises and allocates work to all public works employees. The Director is responsible for departmental budgeting and cost control.

Qualifications:

The successful candidate should hold a Class II Certification to operate a Class II Wastewater Treatment Plant. May have completed an equivalent program of studies, and should have at least five years practical supervisory experience in a municipal environment or another related field. General knowledge and understanding of underground infrastructure, municipal operations and systems, public works, snow clearing and roads maintenance, and other municipal services are essential. Valid Class 5 licence required.

Be Part of Our Exciting Professional Team:

If you're up for a challenge and enjoy a fast paced professional environment apply in confidence (electronically only) and be sure to include a cover letter. Acknowledgement of all applicants will be provided. Incomplete applications will not be considered. Apply as follows:

Mr. Charlie Perry, Town Manager
