

LABRADOR CITY

ANNUAL WINTER PARKING BAN OCTOBER 15TH – APRIL 30TH

As we prepare for the upcoming winter season, we would like to remind residents of the annual parking ban that will be in effect from October 15th – April 30th inclusive. This ban is essential to ensure the efficiency and safety of our snow clearing operations.

During this period, it is imperative that all residents refrain from parking their vehicles on all highways and streets within town limits. Parking on the street obstructs snow removal efforts and hampers our ability to keep the roads safe and accessible for everyone.

Additionally, we want to emphasize that residents are not permitted to shovel snow from their driveways or walkways into the street as this poses a significant safety risk to traffic, as it can create hazardous conditions for drivers and pedestrians alike.

This policy can be found under General Duties and Obligations, Sections 4, 5 & 6 of the Municipal Snow Clearing Regulations and failure to comply may result in a fine.

General Duties and Obligations

4. Snow Clearing Period

The period between the 15th day of October in each year and the last day of April in the year following and any other period when unusual snow and/or ice conditions prevail, shall be known as the "Snow Clearing Period".

5. Parking

During the Snow Clearing Period, no person shall park an unattended vehicle on any street, road reservation or municipal parking area within the limits of the Town in such a way as to interfere, hinder or obstruct snow clearing operations.

6. Depositing of Snow

(a) No person shall deposit, throw, sweep, or place any accumulation of snow or ice on any street, sidewalk or parking lot which street, sidewalk, or parking lot is cleared of snow or ice by the Town.

(b) No person engaged in removing snow or ice from any property or other premises shall do so in any manner that obstructs vehicular traffic on a street or pedestrian traffic on a sidewalk.

Thank you for your co-operation.
