

The Town of Labrador City Set to Build New Gymnastics Facility in Partnership with Snowbirds Gymnastics Club

FOR IMMEDIATE RELEASE

Labrador City, NL, [4/26/2024] – The Town of Labrador City is thrilled to announce a groundbreaking partnership with the Snowbirds Gymnastics Club to bring a brand-new gymnastics facility to Labrador West. This exciting venture has been years in the making and marks the first major capital undertaking aimed at enhancing recreation for the region.

The new facility, spanning approximately 10,000 square feet, will be located on Grenfell Drive, in Wabush and will provide easy access for gymnasts and their families across Labrador West. With an estimated cost of \$6 million, this investment underscores the Town's commitment to providing new and improved amenities for our residents.

Currently, the Town subsidizes the rent of the Snowbirds Gymnastics Club, demonstrating continued support for local sports and recreation initiatives. The new facility offers a long-term solution that will enable the Snowbirds to thrive for generations to come.

For the Snowbirds Gymnastics Club, this facility represents more than just a building—it's a permanent home where over 400 enthusiastic young athletes can train, learn, and grow. With a dedicated team of full-time coaches and staff, the Snowbirds Gymnastics Club has long been a pillar of our community, nurturing talent and fostering a love for the sport among our youth.

"The partnership between the Town of Labrador City and the Snowbirds Gymnastics Club exemplifies our shared commitment to supporting the growth and development of regional recreation in our communities," said Belinda Adams, Mayor of Labrador City. "This facility will not only provide an exceptional training environment for our young athletes but will also be fully accessible aligning with our values and our commitment to building a more inclusive community."

As the project progresses, the Town of Labrador City will continue to engage with stakeholders and develop an operating model that ensures the sustainability and success of this valuable regional asset. Stay tuned for future updates as the project unfolds.
