

Town of Wabush

Section: Controls

#: 207-7

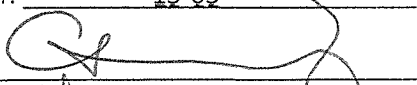

Policy: Water & Sewer Line Tampering (Including Fire Hydrant Use)

This policy is in place to ensure no person/business shall, without a permit, change, alter or replace any pipe connected with the water, sewer line and utilidor system or, without authorization, draw or remove any water therefrom:

1. Written consent shall be given from the Town to allow such a connection or disconnect.
 2. No person shall, except in case of fire or as otherwise authorized by the Town, operate or remove the cap from any hydrant. Use of hydrant to be approved by Fire Chief.
 3. Engineer drawings shall be required and a review by the Town's Engineer if required at the expense of the property owner as per Town Development Regulations.
 4. Minimum tampering fees without Town approval or consent:
 - i. Residential: \$275
 - ii. Industrial/Commercial: \$2500
 5. Director of Public Works shall be on site for inspections and approvals.
 6. Any machinery, tools, i.e. Steam Truck, people power required from the Town may be billed back to property owner.
